Harsh Sharma

NLP Developer | ML Researcher | Aspiring Data Scientist

sharsh2222@gmail.com | 7226088434 | Gujarat, India | harshsharma27
harshgeek4coder | 27/08/2000

Education

SRM Institute of Science and Technology - B.Tech in Computer Science Engineering, Specialization in Big Data Analytics — 05/2019 – present, Chennai, India

- Secured a constant CGPA of 9.8 for the last four semesters.
- Class Representative since last two years - Constantly Supporting Faculty Advisor along with new suggestions, upcoming events, and new ideas for self-development for my entire section.

Mahaveer Public School - CBSE Higher Secondary Education — 01/2017 – 01/2019, Jaipur, India

- Secured my Higher Secondary Education (XI - XII) with Science stream

Skills / Research Interest Areas

Deep Learning
Natural Language Processing (NLP), Time Series Analysis

Database
MySQL/SQLite3, MongoDB-PyMongo, Firebase-Pyrebase4

ML Frameworks
PyTorch, Tensorflow, Keras, Scikit-Learn,NLTK

Web FrameWorks
Flask, FastAPI, Streamlit,HTML,CSS

Programming Languages
C/C++, Python, R

Cloud Platforms
AWS-EC2 Instance, Heroku

Git
Github

Professional Experience

Deep Learning (NLP) Intern - NeuralSpace — 07/2021 – present, Bengaluru, India

- Exploring NER Using BERT On Indic Languages
- Exploring and working on Neural Machine Translation using MarianMT and Pytorch.
- Currently exploring Document categorization and insights retrieval

Lead Machine Learning Developer - Heiphen — 04/2021 – present, India

- Part of a Startup based application software led by seniors of CSE Undergrads
- Used NLP Based Models For Custom Metrics delivery using Fake reviews and Sentiment analysis
- Currently working and exploring custom NER Models and Resume Parser For Backend Team
- Deployed Models using FastAPI on AWS EC2 Instance

NLP Research Intern - Malaviya National Institute of Technology — 05/2021 – present, Jaipur, India

- Working as NLP Research Intern from MNIT, Jaipur
- Exploring Graph Neural Networks and NLP Insights from Text Feature extraction For detecting suspicious users or posts in social media

Research Project Intern - SRM Institute of Science and Technology — 07/2021 – present, Chennai, India

Working Under Various Faculties of SRM KTR on Research Projects:

- Dr. S. Dhanalakshmi - Cognitive E-Journal Analysis for Depressions using Deep learning and Speech processing; E-Journal analysis for remote depression using deep learning and NLP; Question generation and recommendation with bloom's taxonomy using NLP and Deep Learning
- Mr. R. Srinivasan - Working on Code-Mix (Hindi-English) Data-based Multi-Label Classification using NLP and Deep Learning

Associate Technical Director - Data Science Community SRM — 06/2020 – 03/2021

- Started as a Deep Learning Developer where I worked on some state-of-the-art projects, research papers, and technical blogs.
- Later worked as Associate Technical Director where I managed and organized the events in the community, mentored juniors on deep learning boot camps, and hosted webinar sessions with about 500+ virtual attendees.

Community Executive - SRM Machine Intelligence Community — 09/2020 – present, India

- Deep Learning Developer and Researcher at SRM MIC, An undergraduate research community.

Major League Hacking Pre-Fellowship [MLH], *Major League Hacking* 07/2021 – 08/2021
New York

- Pre-Fellowship in Summer Batch of MLH
- Worked and developed a developer tool-based python package called tf-watcher, which can be used for tracking the training progress of ML models in real-time.

Microsoft Learn Student Ambassador - Alpha Member, *Microsoft* 07/2021 – present
India

- Joined the prestigious MLSA Programme
- Recently promoted to Alpha Member.

Recent Projects / Python Packages

Tf-Watcher Package 07/2021 – 08/2021
Open Source-based developer tool python package that can be used to track real-time updates for training ML Models via Mobile or web app.

Conjexure-Stock Market Forecasting
Conjexure is a machine learning web app for forecasting the stock prices of certain companies into the future, built using deep learning

Emergency-Ally
Built using Natural Language Processing and Machine Learning, Emergency Ally is a Comprehensive Web App that can help you provide SOS or Emergency Level Solutions, In Case You encounter or see someone in any Danger or Disaster Situations.

Sike-Tool - Remote Mental Health Monitoring
Using Deep Learning and NLP, our web application aims to analyze the user's mental health using a common therapy technique-journaling.

Research Publications

Smart and Context-Aware System employing Emotions Recognition, *IEEE-INCET 2021* 01/2021
Co-authored a research paper got selected in IEEE-INCET 2021 Research Conference.

Recent Hackathons

SLAC 2.0 Hackathon
Secured 8th Position out of 170 teams [Under Top 10 Finalists]

Octahacks 3.0 Hackathon
Secured 13th Position out of 400+ Teams. [Under Top 20 Finalists]

Hack the CW Hackathon
Secured 12th Position out of 120+ Teams [Under Top 12 Finalists]

Non-Tech Skills

Public Speaking/Workshops
Webinar @ Tensorflow Group Chennai
Webinar @ NeuRes (Data Science Community SRM)
Webinar @ ACF Family Fitness Hack'21
Webinar @ Github Community SRM (Faculty Dept. CSE KTR SRM)

Management
Class Representative Since last 2 Years
Host and Organizer @ NeuRes Webinar Series
Committee Member @ Aarush Tech Festival

Mentorship
Mentor @ Hack The Mountains 2.0 Hackathon(Sudan Tech - MLH, Jammu, and Kashmir)
Mentor @ Hackowasp Hackathon (TIET, Chandigarh)
Mentor @ EngHacks (University of Waterloo, Canada)
Mentor @ Vihaan 4.0 - By IEEE- DTU
Mentor @ Tech Ingenium '21 - By Ahmedabad University
Mentor @ Ignite3.0 Sparkathon - By NMIMS
